

The Roots of Rap

In the book *The Roots of Rap*, we explore the evolution of rap music. One important part of rap is rhyming. Rhyming is when two or more words end in the same sound. Look at the words below and see if you know a word that rhymes with them, and then write it on the line next to the word! Have more than one word? Use the back of this sheet too!

Bee

Car

Cat

Mop

Sun

Grownups

Send us a picture of your little one's rhymes with us and we'll post them on our Instagram Story!
